

MSI 24" 1920X1080 OPTIX MAG241CR Curved VA 144Hz 1MS

Code:
MONMMOPTIXMAG241CR

Vendor code:
OPTIX MAG241CR

EAN code:
4719072580568

59.944 cm (23.6") Non-Glare, Non-Touch (1920x1080) VA Curve Panel, 144Hz Refresh Rate, 1ms Response, 300 cd/m2 Brightness, 3000:1 Contrast Ratio

Visualize your victory with the MSI Optix MAG241CR curved gaming monitor. Equipped with a 1920x1080, 144hz Refresh rate, 1ms response time panel, the Optix MAG241CR will give you the competitive edge you need to take down your opponents. Built with FreeSync technology, the MAG241CR can match the display's refresh rate with your GPU for ultra-smooth gameplay. Make sure you can hit your mark with all the latest technologies built-in the MSI Curved Gaming monitors for competitive play.

CURVED FOR YOUR VIEWING PLEASURE

MSI gaming monitors use a curved display panel that has a curvature rate of 1500R, which is the most comfortable and suitable for a wide range of applications from general computing to gaming. Curved panels also help with gameplay immersion, making you feel more connected to the entire experience.

144HZ REFRESH RATE + 1MS RESPONSE TIME

MSI gaming monitors are equipped with a 144hz refresh rate + 1ms response time VA LED panel which has the most benefit in fast moving game genres such as first person shooters, fighters, racing sims, real-time strategy, and sports. These type of games require very fast and precise movements, which an ultra-high refresh rate and fast response time monitor will put you ahead of your competition.

OSD icon GAMING OSD APP ADVANTAGES

With the Gaming OSD (on screen display) app it is very easy to setup your gaming monitor. You don't need use the buttons on the monitor and go through all the menu's, just use your Keyboard and Mouse to configurate your monitor. The app even gives you hotkey options so you can switch settings between different games in a ease.

ALWAYS READY FOR ACTION

Keep your headset in a easy to access space with the built-in headset hanger. Game on and be fully immersed at a moment's notice.

PERSONALIZE YOUR GAMING RIG

Customize and set up your own color scheme through the MSI GAMING APP. With MSI Mystic Light, the Optix MAG241CR's RGB lights provide a soft ambient light that can easily be synced with any other Mystic Light enabled gaming product. Select any of the colors from the palette using your smartphone or the Mystic Light App to match your system style to your taste. Or just turn on gaming echo, letting your monitor back light dance to music you play on the computer.

TAILORED FOR THE PERFECT FIT

The MSI Optix Gaming monitor is built to enhance your gaming sessions to be as comfortable as possible. With adjustments to tilt, swivel, and height, easily change the position of the gaming monitor for maximum ergonomics and optimum viewing experience.

FROM EDGE TO EDGE

With a super narrow bezel, enjoy the best immersion possible in the latest games with a multi-monitor 180 degree setup. Enjoy better continuity between screens while playing games, working, or general computing.

SMOOTH OUT YOUR GAMEPLAY WITH AMD® FREESYNC

MSI Gaming monitors are built with AMD® FreeSync technology to create the smoothest visuals for your gameplay. To do this, AMD® FreeSync will sync your monitors refresh rate to your AMD® GPU, which helps to eliminate screen tearing or stuttering. Enjoy the game the way it was meant to be enjoyed with ultra-smooth, lag-free visuals.

ANTI-FLICKER TECHNOLOGY

Generic monitor displays normally have a flicker-rate of about 200-times per second, which is unnoticeable to the naked eye, but can cause fatigue over time. MSI Anti-Flicker technology provides a very comfortable viewing experience by reducing the amount of flicker.

BLUE LIGHT REDUCTION

MSI gaming monitors are optimized to reduce the strain on your eyes by reducing the total amount of blue light displayed by the monitor to ensure you can game for longer periods of time without fatigue.

178 DEGREES OF WIDE VIEWING ANGLE

By having a large viewing angle, MSI gaming monitors has more leeway for placing your monitor in your setup without giving up the optimal viewing experience. Colors and details will stay sharp at more angles compared to other monitors with less viewing angles.

MSI REMOTE DISPLAY

Control Your Curved Gaming Monitor with MSI Remote Display APP on Android Smartphone. Allow you to control the contrast ratio, brightness and black equalizer, etc., right from your Android phone. You can even choose the LED effects for the selected gaming monitor with MSI Mystic Light to match your personal style.- Curved Gaming display (1500R) – The best gameplay immersion- Mystic Light – The ultimate gaming finish- FHD High Resolution - Game titles will even look better, displaying more details due to the FHD resolution- 144Hz Refresh Rate – Real smooth gaming- 1ms response time - eliminate screen tearing and choppy frame rates- Gaming OSD App - Create the ultimate viewing settings for your game- True colors – DCI-P3 90% & sRGB 115%- AMD FreeSync – prevent screen tearing- Anti-Flicker and Less Blue Light – game even longer and prevent eye strain and fatigue- Frameless design – Ultimate gameplay experience- 178° wide view angle
